PORTFOLIO

SUMMARY

Full-stack developer (React, Node.js, MongoDB) with a systems-integration background. Since 2023 I have integrated electronic and communication systems at Elbit Systems, and I build Make automations that run real businesses, with 90+ scenarios built. Coding Academy graduate and Practical Engineer in Electronics with honors.

EXPERIENCE

System Integrator · Elbit Systems

2023 - Present

- Integrate complex electronic and communication systems
- Root cause analysis and technical solutions
- Work across software, hardware and RF teams
- Lead deployments and write technical documentation

Founder · Yahav Automations (freelance)

2026 - Present

- Make automations for small businesses in Israel: website leads to Google Sheets, instant alerts, branded confirmation emails and reports
- Live demo: glow-clinic-demo.netlify.app

Spectrum Analyst · IDF, Unit 513

2020 - 2023

- RF signal analysis and interference resolution
- Led field teams in mission-critical operations
- Technical reports and coordination with stakeholders

SELECTED PROJECTS

Creator funnel automation · Ben Nahum, Digital Online

Make · ManyChat · Discord · Cardcom · Google Sheets · WhatsApp Cloud API

- Instagram DMs, Discord community, sales page, Cardcom checkout and email reports, automated end to end
- Abandoned-checkout follow-up and daily, weekly and monthly reports with no manual step

80% click-through on the community link in the welcome DM

Full-Stack Task Manager

React · Node.js · Express · MongoDB

- Full CRUD with JWT authentication and protected routes, a responsive UI with state management, cloud deployment

Weather Dashboard

React · REST API

- Real-time data fetching in a responsive dashboard built from reusable components

User Management API

Node.js · Express · MongoDB

- Complete CRUD operations, input validation and authorization

SKILLS

FRONTEND
HTML5, CSS3, JavaScript (ES6+), React, Hooks, Redux / Context, jQuery

BACKEND
Node.js, Express, REST APIs, JWT auth, WebSockets

DATABASES
MongoDB, Mongoose, MySQL

AUTOMATION
Make, webhooks, Google Sheets, Gmail, WhatsApp Cloud API, Discord, ManyChat

TOOLS
Git / GitHub, Netlify, Render, Heroku, CLI

ENGINEERING
Systems integration, RF analysis, root cause analysis, technical documentation

EDUCATION

Full-Stack Development
Coding Academy · Certified
Jan 2025 - Feb 2026

Practical Engineer, Electronics and Computers
ORT Rehovot · With honors
2018 - 2020

Full matriculation
Math, Physics, English (5 units)

LANGUAGES

Hebrew	Native
English	Fluent
